

Psychiatry and Neuroscience Seminar Series 2022 @ NOON

Date	Speaker (host)	From	Title
7 January	Pr Sylvie GRANON (V Tolle)	Institut NeuroPSI - UMR9197 CNRS Université Paris-Saclay, France	Neurobiology of social and non social decision-making processes in mouse models
4 February	Pr Hermann CUNTZ (C Hanus)	Ernst Strüngmann Institute (ESI) for Neuroscience, Goethe-Universität Frankfurt am Main, Germany	Quantitative analysis and modelling of dendrite growth
4 March	Pr Jean-Pierre ROUSSARIE (H Rebholz)	Boston University School of Medicine. Dept of Anatomy & Neurobiology. Boston, USA	Molecular Dissection of Selective Neuronal Vulnerability in Alzheimer's Disease
1 April	Dr Marilena GRIGUOLI (R Piskorowski)	European Brain Research Institute (EBRI), Roma, Italy	Medial Septum cholinergic inputs to CA2: a new role in social novelty discrimination
7 May	Dr Emilio Fernandez-Egea (MO Krebs-L Scoriels)	Behavioural and Clinical Neuroscience Institute, University of Cambridge, UK	Antipsychotic induced compulsive behaviour: phenomenology and genetic markers
3 June	Pr Oliver BRÜESTLE (MC Angulo)	Institute of Reconstructive Neurobiology, University of Bonn, Germany	Programming neural cells for disease modelling and therapy development
1 July	Dr Clémence BERNARD (A Pierrani – F Causeret)	Centre for Developmental Neurobiology, King's College London, UK	Cortical wiring by synapse-specific control of local protein synthesis
2 September	Dr Costa DEMETRIADES (T Galli)	Cell Growth Control in Health and Age-related Disease, Max Planck Institute, Germany	The reciprocal interplay between nutrient sensing and secretory pathways defines cellular homeostasis
7 October	- (-)		SOON
4 November	Dr Ana Maria FERREIRA de SOUSA (Z Lenkei)	University of Lisbon (UL) Faculty of Psychology, Lisbon, Portugal	Soon
2 December	- (-)		SOON

INSERM U1266, Institute of Psychiatry and Neuroscience of Paris, 102-108 rue de la santé - 75014 Paris

Amphitheater, R04-45, or Online ZOOM Meeting Check on
