

Thursday 30th of April, 2026, Grand Amphitheatre GHU-IPNP

102 rue de la Santé, 75014 Paris

Symposium on

# Cortical Circuits and Behavior

8:50 – 9:00 h *Welcoming words*

Speakers

**Naoya Takahashi**, *IINS, Bordeaux*

Cortical top-down circuits modulating tactile detection sensitivity

**Fani Koukouli**, *IPNP, Paris*

Nicotinic control of cortical inhibition during cognitive behaviour

**Alberto Bacci**, *ICM, Paris*

Different sources of inhibitory plasticity in the neocortex

11:00 – 11:20 h *Coffee break*

**Belen Pardi**, *IPNP, Paris*

Sensory thalamo-cortical interactions for adaptive perception

12:00 h

Keynote

**Johannes Letzkus**,  
*University of Freiburg, Germany*

Top-down control of neocortical threat memory

13:00 h *End*

**Register for free until April 25**
